## 1.1 The first equation

Keep the English statement here.

这里写中文理解、术语或疑问。

**Definition 1.1** (A model equation)
The heat equation is $\partial_t u - \Delta u = 0$.

**Reading note / 中文理解**

把原书的条件、结论与自己的理解分别记清楚。

**Exercise 1.2**
Which conditions are imposed on the boundary and at the initial time?
